Grave Care

Care Agreement

Basic care

Basic care includes spring and autumn cleaning, pruning of plants, fertilising and replenishment of the soil where needed and also weeding and grass cutting around the planting area and gravestone. Any burnt-out grave candles and dead flowers in vases will be regularly removed.

Grass cutting

We will take care of the grass cutting around the grave. You can choose between two alternatives.

1. Have the planting area returfed and you can decorate the grave with flowers in vases and grave candles.
2. You assume responsibility for tending the planting area yourself and we cut the grass around it.

Area (Kvarter) M/Simple care

We will take care of any trimming and weeding of the existing ground cover. Any burnt-out grave candles and dead flowers in vases will be regularly removed.

Options

Perennial package

Decorate your grave by choosing an environmentally friendly alternative. Perennials have many advantages over annuals: they are hardy and easy to care for, require less watering and maintain their beauty for many years.

We offer a perennial package that is suitable for the location and this in combination with bulbs will give you a good display from spring until autumn. This includes a discreet frame around the area (not in Areas M & I).

You cannot combine the perennial package with other planting.

Seasonal planting

Supplement your basic care agreement with seasonal plants. We offer spring bulbs, spring and summer flowers, autumn planting and also decorations for All Saints' Day.

Other services

We also offer a memorial and headstone cleaning service. Contact us for price details.

Prices

Basic care

Urn grave SEK 620

Coffin grave SEK 775

Helpful to know

Grave lanterns and loose objects

We kindly request that you do not place grave lanterns, candles, stones and other loose objects directly onto the grass or along the edge of the planting area to ensure a safe environment. When placing an order for grave care, we cannot guarantee full care if there are objects within the grave area. Thank you for your understanding and cooperation as this helps us to maintain a safe and well-kept environment.

Memorials and headstones

The owner of the burial plot is responsible for the memorial or headstone and its safety.

Tending the grave yourself

Please note that if you want to tend the grave yourself, you are responsible for tending the entire grave site by cutting and trimming the grass and also keeping the planting area free from weeds. It is the duty of the owner of the burial plot to ensure that the grave is kept in a well-maintained condition. Inadequate care may result in the withdrawal of the right to the burial plot.

Care Agreement

We provide two types of agreement to suit your needs: a one-year agreement and an advance payment agreement.

The one-year agreement is ongoing and means that you will automatically receive an invoice prior to each new year without having to renew the agreement. If you do not wish the agreement to continue, you will need to give notice of termination no later than three months before the turn of the coming year.

The advance payment agreement means that you will pay a pre-determined amount to cover the costs for a specific number of years. This agreement can be chosen for a period of between 10 to 25 years. Contact the cemetery management for standard forms and price details.

How to arrange a Grave Care Agreement

Fill in the one-year agreement on our website or at the cemetery management office. Indicate your choice on both copies, sign and return the documents to us.

You will receive your signed copy from us shortly thereafter.

After we have received the completed agreement, we will generate an invoice based on your choice. The grave care will be initiated as soon as payment has been received and processed.
